

To whom it may Concern:

Hi my name is Allison I have disabilities I want my voice to be heard. I work at New Dimensions I like to do phone books with labels and I also get paid for the work I do here working out in the community. I receive training in the training room and I have received a certificate of completion in the following curriculums introduction to computers, cashier/money handling and I am currently working on learning PowerPoint and the copy/print curriculum. I am also receiving training for janitorial jobs. Through New Dimensions I volunteer in the community, I go to St. James Catholic School and help to clear the lunch trays and also go to the thrift store and help them sort through different things.

I am happy that I get to work here every day. I have friends who I love and care about and they care about me. We care about each other's feelings. I'm excited to learn new things. Please do not cut funding for programs like these because without them I would not have jobs to get paid and I would have no money, no friends, and no transportation.

Sincerely,

A handwritten signature in cursive script that reads "Allison Baker".
