

To Whom may concern

Hi my name is Eric chapman and I have Down syndrome. I work at New Dimensions though Disability services resource center. I like to do typing and answer phone and faxing and copying; I would like to get a job as a receptionist. I have been there for 12 years, we have to work together as a business and worker. Please keep New Dimensions open for the next 20 years for more training. We need money for your shop. If New Dimensions was to close we would all be very upset. I enjoy my life I have a good time on the computer at New Dimensions.

Sincerely *Eric Chapman*

Eric Chapman
